Creation Of Spreadsheet:

The screenshot shows a Google Sheets spreadsheet titled "employee". The menu bar includes File, Edit, View, Insert, Format, Data, Tools, Extensions, and Help. The toolbar shows various editing and formatting options. The spreadsheet has columns labeled A through I and rows numbered 1 through 19. The data is as follows:

	A	B	C	D	E	F	G	H	I
1	EMPLOYEE ID	NAME	EMAIL	DEPARTMENT	LOCATION				
2	EMP001	ARUN	arun21@gmail.com	IT	Chennai				
3	EMP002	PRIYA	priya897@gmail.com	HR	Madurai				
4	EMP003	RAHUL	rahul78@gmail.com	FINANCE	trichy				
5	EMP004	SAHA	sahana342@gmail.com	IT	bangalore

Creation of Tables:

The screenshot shows the ServiceNow configuration page for a table named "Employee Test". The page includes a search bar, navigation tabs (Columns, Controls, Application Access), and a "Table Columns" section. The "Table Columns" section displays a list of dictionary entries for the table.

Column label	Type	Reference	Max length	Default value	Display
Created by	String	(empty)	40	false	false
email	String	(empty)	40	false	false
Sys ID	Sys ID (GUID)	(empty)	32	false	false
Employee ID	String	(empty)	40	false	false
Created	Date/Time	(empty)	40	false	false
Employee name	String	(empty)	40	false	false
Department	String	(empty)	40	false	false

No templates are available. Create A New One?

Verify that the newly created fields are displayed on the **Employee Test** form

The screenshot shows the ServiceNow interface for creating a new record in the 'Employee Test' table. The form includes fields for 'Employee ID', 'Employee name', 'email', 'department', and 'location'. A 'Submit' button is located at the bottom left of the form area. The top navigation bar shows 'Employee Test - Create Created' and a search bar.

Create Importset Table:

The screenshot shows the ServiceNow 'Load Data' form. Under 'Import set table', the 'Existing table' radio button is selected, and the dropdown menu shows 'employee import [u_employee_import]'. Under 'Source of the import', the 'File' radio button is selected. The 'File' section shows a 'Choose File' button and 'No file chosen'. The 'Sheet number' is set to '1' and the 'Header row' is set to '1'. A 'Submit' button is at the bottom.

Once we click on Submit, we can see the success message as shown below.

Also we need to make sure to click on Create Transform Map.

The screenshot shows the 'Progress' section of the ServiceNow interface. It displays a table with the following information:

Name	State
ImportProcessor	Complete

Below the table, the 'Completion code' is 'Success' and the 'Message' is 'Processed: 5, Inserts 5, updates 0, errors 0, empty and ignored 0, ignored errors 0 (0:00:00.063)'. The 'Next steps...' section lists the following actions:

- [Import sets](#) Go to the Import sets for this data load
- [Loaded data](#) Go to the newly imported data inside the staging table: u_employee_import
- [Create transform map](#) Create a transform map for the newly staged data
- [Run Transform](#) Transform a loaded import set using an existing transform map
- [Import log](#) View the import log

Create Transform Map:

The screenshot shows the 'Table Transform Map' configuration page in ServiceNow. The top navigation bar includes 'All', 'Favorites', 'History', 'Workspaces', and 'Admin'. The main header is 'Table Transform Map' with a 'New record' button. The configuration form includes the following fields:

- * Name: Sample_ServiceNow Import
- * Source table: Employee Import [u_employee_import]
- Active: ☒
- Run business rules: ☒
- Enforce mandatory fields: No
- Copy empty fields: ☐
- Create new record on empty coalesce fields: ☐
- Application: Global
- Created: [empty field]
- * Target table: Employee [u_employee]
- Order: 100
- Run script: ☐

Below the form is a 'Related Links' section with a link to 'Table Map Diagnostics (Client)'. The 'Mapping Assist' section shows a 'Source (Employee Import)' list with fields: Name, Employee ID, Department, Location, Email, Employee ID, Error, Record sort num, and Location. A 'Field Map' table is shown with the following data:

Source Field	Target Field
Employee ID	Employee ID
Department	Department
Location	Location
Email	Email

There are 'Add' and 'Remove' buttons for the field map. A 'Target (Employee Test)' section is also visible with a 'Sequence' list and 'Add' and 'Remove' buttons.

Now click on Transform as shown below

The screenshot shows the 'Specify Import set and Transform map' page in ServiceNow. The top navigation bar includes 'All', 'Favorites', 'History', 'Workspaces', and 'Admin'. The main header is 'Specify Import set and Transform map'. The configuration form includes the following fields:

- * Import set: ISET0010006 - u_employee_import (2026-09-30 14:24:46)
- Available maps: Sample Spreadsheet Import - u_employee_test, Employee import transform - u_employee_test
- Selected maps, run in order: Sample Spreadsheet Import - u_employee_test
- Buttons: Add, Remove, Transform

After clicking Transform, make sure you see the success message as shown below.

The screenshot shows the 'Progress' page in ServiceNow. The top navigation bar includes 'All', 'Favorites', 'History', 'Workspaces', and 'Admin'. The main header is 'Progress'. The progress bar shows the following information:

- Name: Transforming: ISET0010004
- State: Complete
- Completion code: Success
- Message: Transformation complete

Below the progress bar is a 'Next steps...' section with the following links:

- Go to the import sets for this data load
- Transform history: Show the transform history, related errors and log
- Import log: View the import log

Inserting New Data In Excel Format:

Navigate to All menus.

Search for Load data Under System Import set Open Load Data.

Fill the detail and click a submit button

The screenshot shows the 'Load Data' configuration page in ServiceNow. The 'Import set table' is set to 'employee import [u_employee_import]' under the 'Existing table' option. The 'Source of the import' is set to 'File'. The 'File' section shows 'Choose File' with 'No file chosen'. The 'Sheet number' is '1' and the 'Header row' is '1'. A 'Submit' button is at the bottom.

servicenow All Favorites History Workspaces Load Data Search

< Load Data Submit

Import set table ☐ Create table ☒ Existing table
Import set table employee import [u_employee_import]

Source of the import ☒ File ☐ Data source
File Choose File No file chosen
Sheet number 1
Header row 1
Submit

It appears as State Completed and Success.

The screenshot shows the 'Progress' section with a green bar indicating 'Complete' state and 'Success' completion code. The message states: 'Processed: 5, inserts 5, updates 0, errors 0, empty and ignored 0, ignored errors 0 (0:00:00.063)'. Below is the 'Next steps...' section with links for 'Import sets', 'Loaded data', 'Create transform map', 'Run Transform', and 'Import log'.

servicenow All Favorites History Workspaces ServiceNow Search

Progress
Name ImportProcessor
State Complete
Completion code Success
Message Processed: 5, inserts 5, updates 0, errors 0, empty and ignored 0, ignored errors 0 (0:00:00.063)

Next steps...
Import sets Go to the import sets for this data load
Loaded data Go to the newly imported data inside the staging table: u_employee_import
Create transform map Create a transform map for the newly staged data
Run Transform Transform a loaded import set using an existing transform map
Import log View the import log

Then Click the Transform button.

The screenshot shows the 'Specify Import set and Transform map' page. The 'Import set' is 'ISET0010006 - u_employee_import (2026-09-30 14:24:46)'. Under 'Available maps', 'Sample Spreadsheet Import - u_employee_test' and 'Employee import transform - u_employee_test' are listed. The 'Selected maps, run in order' section contains 'Sample Spreadsheet Import - u_employee_test'. A 'Transform' button is at the bottom.

Transform

Now the State is completed and Success.

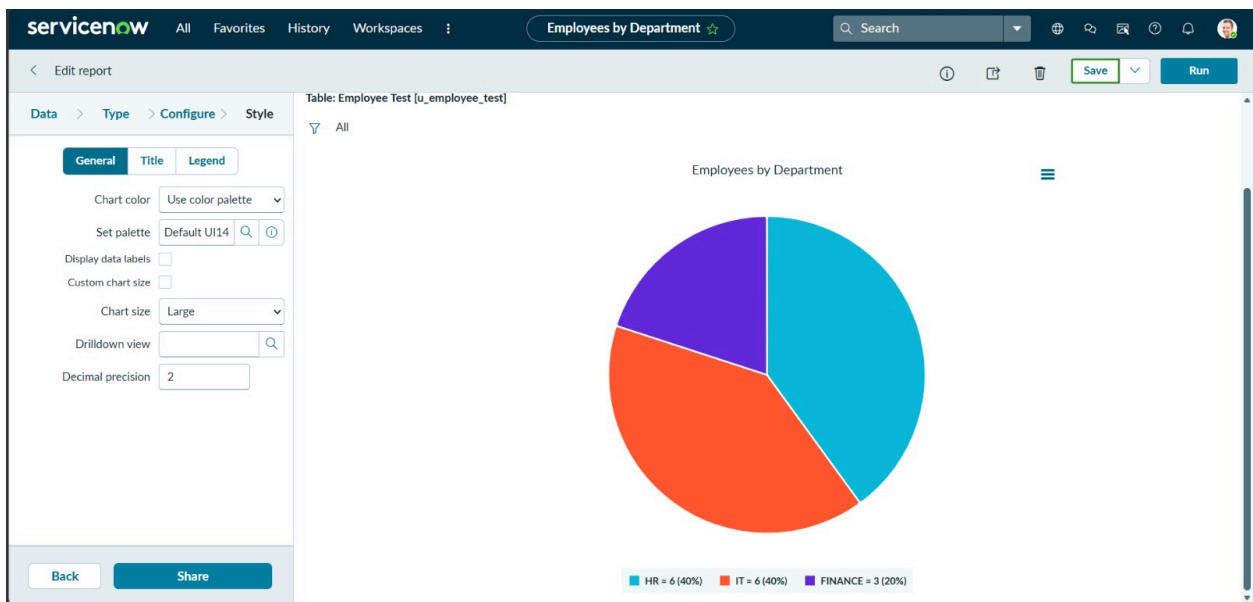

Again click on the Transform history then it shows the newly added data and its status of Inserted and Skipped values out the given data.

The screenshot shows the 'Transform Histories' table in ServiceNow. The table has the following columns: Started, State, Completed, Run time, Set, Import set table, Total, Inserts, Updates, Ignored, Skipped, Errors, and Transform Map. The data row shows a successful transformation for ISET0010005.

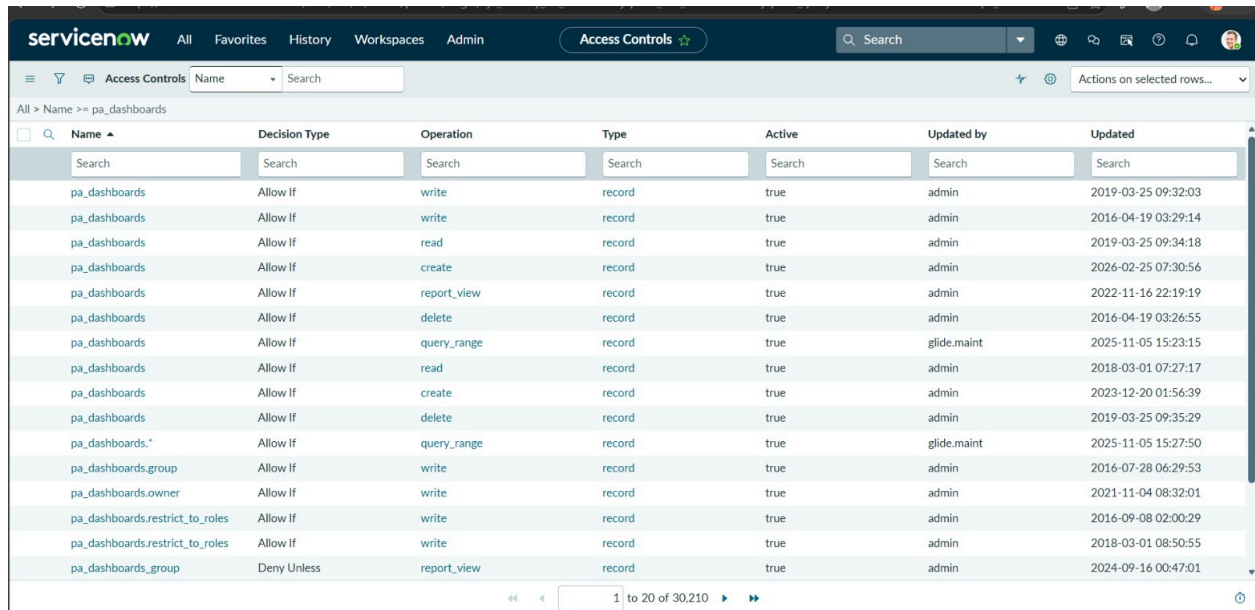

Started	State	Completed	Run time	Set	Import set table	Total	Inserts	Updates	Ignored	Skipped	Errors	Transform Map
2024-09-30 06:29:23	Complete	2024-09-30 06:29:23	0 Seconds	ISET0010005	employee Import [u_employee_import]	5	5	0	0	0	0	Sample Spreadsheet Import

Report :

Adding Reports to Dashboard:

After Opening the ACL Search the pa_dashboards on Name Column

The screenshot shows the ServiceNow Access Controls interface. The top navigation bar includes 'All', 'Favorites', 'History', 'Workspaces', 'Admin', and 'Access Controls'. A search bar is present. The main content area displays a table of 'pa_dashboards' records. The table has columns for Name, Decision Type, Operation, Type, Active, Updated by, and Updated. The records list various dashboard configurations with their respective operations and update timestamps.

Name	Decision Type	Operation	Type	Active	Updated by	Updated
pa_dashboards	Allow If	write	record	true	admin	2019-03-25 09:32:03
pa_dashboards	Allow If	write	record	true	admin	2016-04-19 03:29:14
